Container VDA-C-KLT
Product code 3217

Technical specifications:

External dimensions: 300 x 200 x 174 mm

Internal core dimensions: 260 x 136 mm

Internal useful height: 154 mm

Volume: 5.5 l

Weight: 0.8 kg; +/- 1% tolerance

Static charge: 20 kg

Maximum Stack Load *: 600 kg

Temperature resistance: between +60 and -20 ° C

Material: PP

Color: blue

Description:

- ✓ Fully reinforced base, reduced on the outer edges to allow for stacking;
- ✓ Double walls;
- ✓ Integrated closed handles to facilitate manual pickup and displacement of the container;
- ✓ Standard used in the German automotive industry;
- ✓ According to VDA 4500;
- ✓ The solid construction is suitable for intense handling over a long period of time;
- ✓ Ideal for transporting and retaining components and car parts, from delivery to the assembly line.
